

# ENVIRONMENTAL POLICY

## Disclaimer

**Respect and protection of the environment is an essential factor for development of our strategies and policies.**

**To sustain environmental protection is one of our top priorities.** It is also integral part of our company's activities. To support this, we have decided to **implement system of environmental management** in accordance with ČSN EN ISO 14001.

## Our commitments

- We comply with current legislation and internal guidelines for environmental protection.
- We spread the awareness about environmental protection not just among our employees, but also among our suppliers and customers.
- We strive to minimize negative impact of our operation on the environment. We make effort to reduce energy consumption, local pollution and emissions of greenhouse gases.
- We implement preventive measures to avoid accidents, pollution of air, water, or soil. Also, these measures are intended to avoid excessive production of waste.
- We implement new procedures in order to increase the safety of our employees and customers together with the protection of water resources and biodiversity.
- We consider and assess possible negative environmental impacts of products we offer. We inform our suppliers and customers about possibilities to reduce these impacts.
- We promote sustainable consumption among our customers. We do so by our focus on quality products with longer life-time or on products that contain a high proportion of recyclable materials.
- We offer ecological disposal of unrepairable machinery to our customers.
- We are conscious with the decisions making when transporting goods and maintaining land owned by the company. We consider possible negative impacts on environment, water resources etc.
- We manage and maintain company owned land with respect to biodiversity and before any action we consider its possible negative effect on living organisms, soil, air and water resources.
- We demand environmental responsibility from all our business partners.
- We present this policy to all of our employees.
